

## RESPONSES OF THE BROTHERS TO THE April 2010 MPL

### 1. Do you feel that so many persons, living creatures are working towards your very existence on this earth?

- ◆ I'm depending on so many peoples from my birth till I die.
- ◆ God has created us and the world in such a manner that every body has to depend on someone.
- ◆ It is visible in the case of Adam & Eve.
- ◆ Nobody is an Island.
- ◆ World is much globalized.
- ◆ From my day to day living, so many living creatures, things that I do not see are involved in my existence. All these are visible & show my interdependence & unity in diversity.
- ◆ Yes I feel that so many persons, living creatures are working towards my very existence on this earth.
- ◆ We need each other to live on this earth.
- ◆ We have to depend on each other & look after each other.
- ◆ It is impossible to live in my own world without depending on others.
- ◆ After reading reflectively your presentation in "Interdependence," I realize that so many persons and living creatures are working towards our very existence.
- ◆ Recycling of living matter by so many creatures, worms, mites, algae, etc. make me marvel at God's omniscience & omnipotence & benevolence.

### 2. "There's none to care for me" would you be able to agree with this?

- ◆ I'll never agree with the above statement. My parents, Brothers & Sisters & relatives and friends take care of me.
- ◆ I too take care of many in this world.
- ◆ The teachers, Priests, Brothers & Sisters and many others have taken care of me.
- ◆ Even now, I know quite well many people take care of me. Through this I feel the care & concern of God the Father.
- ◆ God cares & loves me.
- ◆ He has called me by my name.
- ◆ I have to care & share my life with others.
- ◆ Charity is a supernatural gift. I have to be charitable & kind to my fellow beings.
- ◆ It is according to my giving, that I receive.
- ◆ There're unforeseen forces in my life, who cares & loves me.
- ◆ I would not agree with "There's nothing to care for me." I realize that so many living creatures are continually helping me to live a healthy & happy life.
- ◆ The food that we eat and the water we drink sustain our life along with our family set up and the fabric of society.
- ◆ We see that we are being taken care of by a variety of factors both human & otherwise.

May 2010

Brothers,

### ARE WE REAL PERSONS?

Three generations of women - a grandmother, a mother, and a little girl - went to a restaurant. The waitress took the grandmother's order, then the mother's, and then she asked the girl, "What would you like, honey?"
